the irish french economist richard cantillon initially coined the term entrepreneur from the french word entreprenere which meaning to undertake it is generally agreed that the term entrepreneur was first used by the french economist jean baptiste say sometime in the nineteenth century one who undertakes a business typically as a contractor serving as mediator between capital and labour according to his definition in recent years the concept of entrepreneurship has received a lot of research and discussion as more individuals come to appreciate the importance of small businesses to national economic development as a result of the widespread conviction that even a modestly successful startup has the potential to expand into a substantial enterprise developing nations have instituted regulations and tax incentives designed to foster the creation of such ventures startup creation promotion and management are all components of entrepreneurship the term entrepreneur refers to a person who runs a business on their own rather than being employed by someone else someone who is self employed manages their own company group or profession with this complicated topic in mind the chapter on entrepreneurship provides a sharp point of emphasis to create or extract value economically is the essence of entrepreneurship according to this definition entrepreneurs are those who seek out new opportunities and are willing to take risks beyond those typically associated with launching a firm an entrepreneur is someone who takes on the primary responsibility for starting up and running a firm as well as the majority of the financial risk entrepreneurship refers to the actions taken to establish a company the entrepreneur is often credited with introducing novel products services and methods to the market entrepreneurship has been defined in more limited ways as the capacity and willingness to develop organize and manage a business venture along with any of its risks to make a profit or as the process of designing launching and running a new business which is often similar to a small business entrepreneurs are the folks who come up with these company ideas in spite of the fact that most definitions of entrepreneurship center on the creation and management of new firms many new ventures fail due to lack of money poor business choices government regulations an economic crisis a lack of market demand or a combination of all of these

designed primarily as a textbook for undergraduate students of commerce this accessible and easy to read text gives a clear exposition of the theory and practice of entrepreneurship it exposes the readers to the entrepreneurial culture and industrial growth in india the intricate theories involved in entrepreneurship are explained in a step by step manner supported by a large number of tables and figures the thorough discussion on promotion of venture and raising of funds is aimed at enabling the potential entrepreneurs to set up and successfully manage their own small business units separate chapters on women entrepreneurship and rural entrepreneurship make this text a class apart besides undergraduate students of commerce students of management and edp trainers will also find this text extremely useful above all all those who are interested in and enthusiastic about setting up their own small units will find the book quite handy

the 21st century brings all new rules entrepreneurs are challenging conventional wisdom and thinking outside the box one of the first challenges involves challenging the assumption that a business has to be big to be successful while most of the 20th century heralded big businesses it is clear that businesses no longer have to be big to do big business now it is possible for a handful of people to operate a global business from virtually any place on the planet today the keyboard has overtaken the boardroom financial markets alliances and joint ventures have eliminated the need for entrepreneurs to put up substantial capital investments today's businesses are driven by ideas innovation and execution this book will show entrepreneurs and business leaders will provide ceos and entrepreneurs with the tools that they will need to become leaders in their market

this book presents a lucid treatment of a wide range of issues involved in the development of entrepreneurship it presents an insight into

the identification of business opportunities creating a venture and financing and managing it the book further explains the choice of technology and equipment man machine and materials management pert and cpm and quality assurance the book highlights the various legal provisions relevant to entrepreneurship and concludes with a chapter on social responsibility and business ethics with its wide coverage and step by step approach the book would serve as an ideal text for various undergraduate courses on the subject including b com b a and b sc vocational bio technology bbm mba and to the entrepreneurs

this book will appeal to researchers and scholars interested in entrepreneurship and creativity issues coming from a wide range of academic disciplines these readers will find an up to date presentation of existing and new directions for research in

the new edition of this market leading textbook provides a holistic introduction to the academic study of entrepreneurship and offers practical guidance for prospective entrepreneurs adopting a life cycle view of a business from start up to maturity it explores the many stages and forms of entrepreneurship with an international outlook and expert synthesis of both theoretical foundations and lessons from real life business practice the book offers a complete course guide fostering entrepreneurial talent thinking and skills the author's engaging style and unrivalled expertise drawn from a long ranging career as an academic accountant and entrepreneur make the book accessible and authoritative this is an ideal textbook for those studying entrepreneurship or small business on undergraduate business or management degree courses as well as on mba programmes it will also appeal to those looking to launch their own businesses new to this edition updated international case studies from entrepreneurs and small businesses ranging from oman to australia first hand detailed stories from real life entrepreneurs in brand new video interviews integrated throughout the text increased and integrated coverage of social and civic enterprise and hot topics such as effectuation and lean entrepreneurship

this book explores whether there is reason to be against entrepreneurship just like literature on the darker sides of entrepreneurs and entrepreneurship the book is an answer to the one sided overly positive and uncritical image of entrepreneurship the twist in this book in comparison with literature on dark sides of entrepreneurship is to explore being against entrepreneurship from various perspectives such as lexical semantics marxism philosophy of science and psychology the contributors contemplate on why there may be reason to be against entrepreneurship discourse as well as entrepreneurship practice some chapters are based on first hand empirical data others are conceptual the main overall conclusion is that there are some strong arguments for being against entrepreneurship discourse as well as for being against certain aspects of entrepreneurship practice before it is reasonable to be against entrepreneurship practice in total a convincing and practicable alternative needs to be developed this book will be valuable reading for entrepreneurship scholars as well as academics working in the fields of business ethics critical management and international business

for entrepreneurs to really succeed in the long run in their business ventures they have to deal with certain fundamentals of entrepreneurship the five dynamics of entrepreneurship developed by po chung with saimond ip describes the minimum qualities that an entrepreneur must have and tap into in order to build a company that inspires po should know he helped build dbl the world's a most global of global companies a this book written by two practicing entrepreneurs taps into the wealth of experience the stories and the cases from asia and the west more importantly the authors accomplish what few books out there have which is to really explore how to survive the a first ten yards of a new company and thrive from the dreamer who wants to launch a business to an mba student or an executive this book is for all of them it addresses the critical factors that determine the success or failure of any new business venture also available in the gale virtual reference library ebook pricing varies according to the size of your institution please contact us for details ebook isbn 13 9789814253796 available now

entrepreneur and entrepreneurship are the two terms which are current areas of interest as well as research in the management circles an entrepreneurs contribution to an economy cannot be overlooked the substantial contribution to gdp is one of the most significant of the entrepreneurial inputs employment generation development of infrastructure optimum utilisation of natural resources of a country societal benefits as a result of corporate social responsibility and societal gains of marginalised strata through social entrepreneurs are other major contributions of entrepreneurial activities in an economy this book entrepreneurship is penned down with the aim of making the reader aware of the concept and evolution of entrepreneurship it also tracks the journey of entrepreneurs from earlier times to contemporary scenario for the ease of understanding the book is divided into ten chapters chapter one entrepreneur an introduction describes the meaning of the term entrepreneur the characteristics predisposition towards innovation types of entrepreneurs and the risks that they undertake it also divulges the details of entrepreneurship and the common mistakes made by entrepreneurs which may lead to the failure of the start up the second chapter theories of entrepreneurship tracks the evolution of entrepreneurship it discusses the entrepreneurs and entrepreneurship from the perspectives of different thinkers economists and social scientists the third chapter entrepreneurial behaviour and motivation focuses on the unique behavioural characteristics of entrepreneurs that set them apart from the rest of the crowd the motives behind choosing to set up business rather than treading the safer path of a job are also discussed promoting a venture the fourth chapter takes a detailed overview of the general process that takes place before an entrepreneurial venture is actually set up this includes all measures that ensure an entrepreneur taking calculated risk so that start up does not run into imminent risk subsequently project planning is undertaken and feasibility study is done this results in detailed and step by step report this report covers everything from conception and viability of the idea to the possibilities of its survival and sustainability in market which in turn affects the possibility of raising finance from investors and institutions in the initial stage this is covered in the fifth chapter the seventh chapter describes different sources of raising capital during initial as well as later stages of the life of a business enterprise all sources from personal investment to ipo and loans from institutions along with the advantages and disadvantages of each have been discussed the seventh chapter is about the role that an entrepreneur plays in an economy and society his contribution to economic development and economic growth along with other contributions to society has been pondered about the eighth chapter enlists various challenges that entrepreneurs and entrepreneurial ventures come across this chapter also highlights the preparedness of economies and societies towards entrepreneurial pursuits the chapter ends with two stories of first generation indian entrepreneurs describing their journey challenges faced and difficulties conquered the ninth chapter is about emerging class of entrepreneurs called social entrepreneurs

these individuals believe in doing their bit to marginalised section of society without nurturing the aim of profit maximisation although this class of social entrepreneurs share some characteristics with their counterparts the entrepreneurs yet they are different in pursuit of their goalsthe last chapter contains five case studies of entrepreneurs from across the world tracing their journeys obstacles fought strategies applied businesses expanded and histories being created the cases end with questions for the reader to ponder about the given situation every chapter contains at least one question in the end that refers to live example or case study of the entrepreneur in the country of the reader and relate the topic discussed with his chosen entrepreneurial venture hope that the readers will find the book interesting the feedback and suggestions to make this endeavour better are most welcome

there has been an explosion of interest in entrepreneurs in the popular media as well as in business policy and education but what do entrepreneurs do what is entrepreneurship and why is it important what is distinctive about entrepreneurs and where do they come from in this very short introduction paul westhead and mike wright weave a pathway through the debates about entrepreneurship providing a guide to the entrepreneurial process they look at how the actions of entrepreneurs are shaped by the external environment and availability of resources consider the types of organizations in which entrepreneurs can be found and look at the diversity in their backgrounds experience and how they think and learn lastly they consider the impact that entrepreneurs have on modern market economies and look at the future of entrepreneurship in our increasingly globalized world about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

a gold mine of advice and guidance from an international team of entrepreneurial all stars from tie the world s largest not for profit entrepreneurial organization this valuable handbook features chapters written by acknowledged experts in their respective fields it covers all areas of vital concern to entrepreneurs as well as the accountants venture capitalists and attorneys who work with them including legal issues venture funding management teams stock options business planning and much more tie is a worldwide organization founded in silicon valley over a decade ago and dedicated to promoting entrepreneurial ventures its members number 800 professionals in forty one locations in eight countries

corporate entrepreneurship and venturing is positioned at the crossroads of the strategy and entrepreneurship fields the common theme is how and why corporate entrepreneurship and corporate venturing can contribute to innovation and strategic renewal in large established companies in particular it explores ways to balance exploitation and exploration in established companies the issue is how the locus of entrepreneurship affects the way corporate entrepreneurship addresses the exploitation exploration challenge in some chapters corporate entrepreneurship is dispersed across the organization and they examine the key elements of an entrepreneurial culture and the organizational conditions that are favorable to entrepreneurial initiatives the other chapters contribute to the discussion on the potential role of corporate venturing which is separated from the main parts of the organization they examine the advantages and disadvantages of corporate venture capital programs as particular forms of focused corporate entrepreneurship

entrepreneurship is the most important instrument of social and economic development it is because of this reason it is remarked that developing countries are not underdeveloped but undermanaged it is true of japan about a century ago japan was considered as an underdeveloped country thanks to the rapid progress made by management science now japan is regarded as one of the most advanced countries of the world increasing production and productivity is the need of the hour these are dependent upon physical factors or natural resources of a country and its human resource however the resources capable of enlargement can only be human resource all other resources stand under the laws of mechanics they can be better utilised or worse utilised but they can never have an output greater than the sum of the inputs man alone of all the resources available to man can grow and develop if properly directed and motivated in line with this thinking there has been a revolutionary change in management philosophy he man is potentially creative trustworthy and co operative he is also considered to possess the potential for growth achievement and constructive action with others it is the job of the management to nurture and tap employee s productive drives entrepreneurship therefore hold the key to the economic development of a nation it is because of this reason the u g c s unified syllabus has included the study of business management subject in almost every course in business and management disciplines be it b com m com b b a or m b a c a c s c w a and so on the author has tried to explain the subject in the most simple language extensive use of charts pictures and diagrams has been made to explain and illustrate the difficult concepts and fundamentals of entrepreneurship important questions asked in the examinations conducted by various universities and professional institutes have been given at the end of each chapter the authors sincerely believe that the book will be of immense use and help the students preparing for these examinations

ways in which poverty can be reduced in both countries and regions through business entrepreneurship and government has been a hot issue for researchers and policymakers in recent years governments can play an important role in helping the poor people by non profit organizations and others that help to seed business among the poor businesses increasingly also see the large number of people in severe poverty not only as an issue for social concern but also as a potentially large untapped market of consumers for goods and services some scholars have called for poverty reduction through entrepreneurship owing to the fact that it can be an efficient path to also change the poor s attitudes and behaviours from a passive mode to a more active mode towards poverty reduction economically and socially in addition the sharing economy brings opportunities where everyone is a micro entrepreneur there is a recognition that these types of entrepreneurship above could offer the greatest single potential means to move individuals out of poverty in the nations and regions in the next 5 10 years this book provides new and valuable analyses of poverty and business entrepreneurship and innovation in current nations and regions including developing and developed countries as business entrepreneurship and innovation can help to generate greater business activity in settings of severe poverty they will help to solve poverty as individuals in severe poverty are able to both

generate greater incomes and accumulate greater assets as they participate with large firms in those activities the chapters in this book were originally published as a special issue of the entrepreneurship regional development
